Preface

Since its initiation in 2004, the International Symposium on Leveraging Applications of Formal Methods, Verification and Validation (ISoLA, see <http://isola-conference.org>) has been providing a forum for developers, users, and researchers to discuss issues related to the adoption and use of rigorous tools and methods for the specification, analysis, verification, certification, construction, test and maintenance of software systems from the point of view of their different applications domains. In 2014, ISoLA hosted for the first time also a Doctoral Symposium as a scientific and networking event specifically targeted at young academics, complementing the different thematically focused research tracks of the main symposium. Master and PhD students were invited to participate and to present their research ideas and projects, to discuss them with the scientific community, and to establish collaborations in their field of research. It was very well adopted (by the young researchers as well as by several seniors that attended the sessions) and presented high-quality works on a wide range of topics. Accordingly, the next IsoLA in 2016 again featured a Doctoral Symposium.

This volume contains the post-proceedings of the 2016 Doctoral Symposium. The four papers contained in this volume are the result of a selection and reviewing process that started with a total of eight contributions. I am very grateful to all individuals who acted as reviewers for the efforts they put into the selection process and for the valuable feedback they provided, which was essential to ensure high quality content.

Utrecht, Netherlands
June 2018

Anna-Lena Lamprecht
Guest Editor

ISoLA 2016 Chairs

Symposium Chair: Tiziana Margaria, Lero, University of Limerick, Ireland
Program Chair: Bernhard Steffen, TU Dortmund University, Germany
Doctoral Symposium Chair: Anna-Lena Lamprecht, Lero, University of Limerick, Ireland

Volume Reviewers

Steve Boßelmann, TU Dortmund University, Germany
Yehia Elrakaiby, Lero, University of Limerick, Ireland
Frederik Gossen, Lero, University of Limerick, Ireland
Kahina Hacid, Informatics Research Insitute of Toulouse, France
Sven Jörges, FH Dortmund, Germany
Steven Smyth, Kiel University, Germany
Jan-Martijn van der Werf, Utrecht University, Netherlands
